

# SALUJA GOLD INTERNATIONAL SCHOOL

## ACADEMIC CALENDAR -2023-24

We do not just live by time, days and months, we live by our deeds. This Table-Top Academic Calendar is specially designed for the children and adults to keep in mind to inculcate and form good habits & get an up-date on the dates of examinations, activities, PTMs, holidays, vacations, special assemblies on National and International days. Saluja Gold International School not only wants children to learn in the school but they need to be given right input in all the places and in all the areas

## Self Awareness

- Keep an open mind, the more you are open, the better is your learning and growth.
- Train yourself to be focused. Developing consistency and persistency will enable you to achieve a better result.
- Apologize when needed. Mistakes happen, but Self-awareness will help you identify when you slip down and need to apologize.
- Practice Self Discipline. Being punctual would help you save a lot of your time and you can set example for others.

## May 2023

### Empathy

- Empathy begins when you set the intention of listening for emotion of others and accordingly give your support.
- Spend time with people you know less, and try to learn more about them by asking more about themselves.
- Be helpful to less privileged people. Try to do things, however small, to make difference in someone else's life.
- Develop your observational skills. By honing observation skills, you can have a better understanding of someone else's experience.

# July 2023

## Problem Solving

- Identify the problem and analyze them.
- Evaluate the options and choose the best one for solving the problem.
- Decide on a solution and plan on how the solution will be implemented.
- Measure the Success of your Solution. Evaluating the success of your solution is vital.
- Remember that all problems are simply puzzles waiting to be solved.
- Discuss your plan with others and take their suggestion. This will help you in framing the right decision for a given problem.

## August -2023

### Critical Thinking

- Ask more and more questions as it is a good way to learn more about a topic.
- Questions can be the catalyst to intelligent discussions.
- A great way to develop critical thinking skills is to engage in conversations with other students.
- Engage on a deeper, more intellectual level with your coworkers and supervisors to form stronger bond.
- Develop better comprehension skills, both in conversation and reading.
- Practice active listening as it is a foundational element of effective critical thinking. Listen carefully and attentively while your classmates and teachers are conversing.

## September -2023

### Effective Communication

- Clear communication starts with active listening
- Effective communication relies on nonverbal cues such as developing effective body language and presentation skills.
- Practice public speaking. Public speaking may sound daunting, but there's no better way to develop good communication skills than by seeking out public speaking opportunities.
- Take notes while you are talking to another person.
- Always pause before you speak, not saying the first thing that comes to your mind.

## October 2023

### Interpersonal Relationship

- One of the best ways to build trust at work is to let your classmates know you appreciate their expertise.
- Set meaningful goals to develop effective interpersonal skills.
- Consider your strengths and specify what elements of your interactions you'd like to develop.
- Brainstorm different ways to practice your own skills and abilities.
- Set a reminder or add a note on your calendar to perform a self-evaluation or assessment, and work on to improve the grey part.

## November -2023

### Time- Management

- Time is your most precious asset, and good time management means getting comfortable with saying 'no' to tasks that are not your priority.
- Create a list of the tasks based on priority and check off items as you complete them.
- Set goals that are specific, measurable, achievable, realistic, and secured within a time frame.
- Avoid all the distractions and take control of your time so as to get more of your work done.
- The ability for good decision-making about time is one of the good time management skills.
